

The Magic of Geneva Glen

a place of transformations-
where friends become family
ordinary kids become royalty
and summers become enchanted

"A summer camp that is so much more than just a camp, Geneva Glen is the place to spend an unforgettable summer while having a positive influence on the lives of children. As a counselor, you have the opportunity to gain the richest benefits from the camp experience as a result of the constant contact and involvement with children of many ages and backgrounds."

-New experiences, discovering unknown talents and learning independence

It might be as simple as coming up with something creative to make in arts and crafts, or as exciting as overcoming their fear of heights on the climb wall or high ropes course, or even just the challenge of living with 10 other kids away from mom and dad and the comforts of home.

-Gaining self confidence

Geneva Glen is where kids can be free from some of the anxieties of the "real world." They don't have to worry about grades in school, impressing their peers or other social pressure, which helps them come closer to realizing and expressing who they really are.

-Building positive relationships

The support, comfort and empathy that the counselors provide are a catalyst for growth in our campers. It will be the kids who adore you, the children that try your patience, and campers who confide their secrets to you that will change your life as much as you transform theirs.

Geneva Glen is nationally recognized for its unique and creative programming.

-Basic Camp Areas

Horseback riding, adventure programming like climbing and rappelling, arts and crafts, archery and swimming. There are Colorado Open Space parks, rock climbing sites, caves and rivers all within a short drive of camp

for daily, overnight and multi-day trips.

-Creative Programming

Leadership seminars, alchemy, ballistics, Dragonology, fairy-finding, pow wow, international chautauqua, radio DJ'ing are just a few examples of the unique programs our staff create.

Even with the remarkable program opportunities, what defines Geneva Glen as unique are the relationships formed throughout the summer joining us as a "camp family."

"If you want to influence a child's life and experience an unforgettable summer, then Geneva Glen is the most rewarding way to spend your

summer."
